

JURIES R US Campaign Announcement:

Dear Fellow Freedom Fighters,

“JUDICIAL BOMBSHELL” Leaflet Drive:

This is the lever to prize our Courts out of the hands of our enemies out of the hands of the criminals and traitors who are stealing our Lives, Liberties and the Pursuit of Happiness by stealth, lies and downright malice. This leaflet contains the breakthrough we've been waiting for a so-called Judge exposing the illegitimacy of Magistrates exercising jurisdiction without the Common Law prerequisite of Consent. The information on this leaflet must be put into the hands of every Australian to empower them against these “false brethren” who are not above the law, no matter what jaundiced and outrageous Statute Laws might spew from so-called “representative” Parliaments.

The “JUDICIAL BOMBSHELL” leaflet keeps it simple. No Consent = No Jurisdiction. A Slave has No Right of Consent, Nor a Right to Property, and No Right to Trial by Jury. With this leaflet in-hand, We Ordinary Folk can demand that every issue-under-the-sun, that is brought to Court, will be determined by fellow Aussies who are “competent, independent and impartial”. This is “in the interests of Justice” and restores Democracy to its true purpose.

I want to start getting the printing of squillions of leaflets done for Freedom Fighters to request being sent to them for them to hand out and distribute any way they can. From Broome to Brisbane. From Darwin to Deavonport. Let's put all the rogues on notice that we are taking our country back..... and, when the Sheriffs wake up to the fact that they have a sworn Oath “to ensure that people can access their rights in court in safety”, these “Chief Law Enforcement Officers” will do their duty and back us up.

Personally, my health is getting better and I will be out-and-about soon standing out in front of the Parramatta Local Court in the Parramatta Law Precinct, with posters on my wheelie bag and handing out leaflets. Who will join me? Who wants some leaflets?

Yours sincerely,

John Wilson.
