ANOTHER ILLEGAL MORTGAGE RISE:

Dear Fellow Freedom Fighters,

Re: CONTRACT FRAUD: “Variable interest rates render a contract void for uncertainty” because, under Common Law, there are 8 essential elements for the creation of a contract, ie: Offer; Acceptance; Sufficient consideration; Capacity to contract; Intention to enter legal relations; Legality of purpose; Genuine consent; and Certainty of terms.

A lawful contract is “an agreement that is duly executed and legally binding” and “cannot be broken nor added to” unless by an Addendum which “adds new rules, conditions, or details to an active, fully binding contract without rewriting the original text” and is “fully legally binding once signed by all parties who signed the original agreement” and is “created either at the same time as the primary contract or added later on”.

Australian Judges who conceal the Fraud of Variable Interest Loans are as corrupt as the Banksters who so criminally enrich themselves.

Yours sincerely,
John Wilson.
