# RETURNING HAPPILY TO 331:

Dear Fellow Freedom Fighters,

SIX DAYS after the D.P.P. withdrew charges against me in the Parramatta Local Court on Thursday 8th October 2026, I picked up some meds from the North Rocks Shoppingtown and was about to catch the bus home when I thought "I'll call in at my surgery and tell the trespassers there of the the happy news." Being across the road and a 100 metres away - it was a short walk.

The gate was open, but nobody answered my knocking. Then a white car pulled up on the roadway and a young and an older female got out. The older one seemed familiar and, in fact, turned out to be one of the 2 Koreans who had been suckered into thinking they had bought my property as a result of a multitude of Kangaroo Courts b.s. carryings-on. She kept on saying she would phone the Police and I told her several times that it was the Police who withdrew the charges. Poor lady. She really hasn't got a clue. I said her, as I've done repeatedly before, that she is entitled to compensation for being taken advantage of .... but she obviously doesn't believe me.

Yes. Now that the D.P.P. has finally backed down, I am keen to get back into court and sort out the whole farce of lying, thieving Banksters and lying treacherous Judges. I really want Senator Pauline Hanson to come out with a public announcement that she, too, has no time for thieving Banksters and their fraudulent variable interest mortgages. I'm taking each day and each development as they come. Being 84 slows me down a little but my passion for Truth and Justice gets stronger.

Yours sincerely,
John Wilson.
