Dear Senator Sean Bell,

Re: 2 Questions at Question Time in the Senate when the Senate next sits on 16 - 19 November & 23 - 26 November 2026.

Questions for the Minister for Financial Services, The Hon Dr Daniel Mulino, MP:

Question #1: ***"Can the Minister for Financial Services guarantee that the money created "out of thin air", pursuant to the commercial banks' process of Fractional Reserve Banking amounting to between $200 billion to $230 billion in digital money every year, is indeed destroyed thus removing it from circulation with the repayment of the loan principal?"***

....and.....

Question #2: ***"Will he guarantee that the fraudulent practice of variable interest rates and, therefore, uncertainty of terms, as an element in the creation of loan contracts is abolished and outlawed by the end of today's session?"***

Above are the 2 questions that ought to be levelled at a Government responsible for MALADMINISTRATION (an Offence indictable by a Grand Jury) that is nothing less than the sabotaging of our Commonwealth the brings to mind the words of Thomas Jefferson, ie: ***"If the American people ever allow private banks to control the issue of their currency, first by inflation, then by deflation, the banks and corporations that will grow up around them wil deprive the people of all property until their children wake up homeless on the continent their Fathers conquered ... I believe that banking institutions are more dangerous to our liberty than standing armies .... The issuing power should be taken from the banks and restored to the people, to whom it properly belongs".***

I would like to come and talk to you at your office in Bligh Street as soon as possible, ie: before the end of this week, to answer any questions you might have.

Yours sincerely,
John Wilson,
PHON Member # 87165.
